

## SKI-IN/SKI-OUT FAMILY MOUNTAIN RESORT & SPA

### LOCATION

The Municipality of Bardonecchia was the Olympic Municipality for the Turin 2006 Winter Olympics. In particular, Bardonecchia hosted the snowboard competitions and an olympic village.

Bardonecchia is located at 1312 meters above sea level, in one large basin in which four valleys converge arranged a fan: the valleys of Rochemolles, Frejus, Rho and Melezet with the Valle Stretta. The Bardonecchia basin opens in the centre of a large amphitheatre of high peaks (maximum altitude 3505 m.) and the homonyms streams descend from the four valleys.

The woods of Bardonecchia, in total over 160 million square meters, constitute a unique natural heritage in the Piedmont's panorama among pines, firs, flowery meadows, blueberries and raspberries' plants.

An ideal destination both in winter and in summer, whether in the enchantment of snow-covered landscapes or walks in unspoiled nature.

### THE HOTEL

Right on the border between heaven and earth, a spectacular scenery between alpine peaks and valleys, a corner of paradise in the heart of south ridge of Mount Jafferau, stands the extraordinary Savoia Mountain Resort at 2000 meters inside the district. On the ski slopes.

An oasis of quiet. A place where reigns the joy of returning to live. A place of inspiration. The imposing peaks with their spectacular rock faces and snow-covered foliage, silent witnesses of the primeval forces of nature that they have shaped this incredible region.

In the presence of such a scenario the borders dissolve, the border between architecture and landscape, between sky and earth, between man and nature. Treat yourself to a stay at Savoia Mountain Resort (4 stars hotel with 5 stars service) to return to being one with nature.

## RESTAURANTS

The Savoia Mountain Resort offers a special half board culinary treatment that provides different types of dinners included in price of the stay, including grilled meat e other piedmonts' specialties.

The Restaurant “**LA VOLPE**” is dedicated to a red fox, who visits us from time to time, intrigued by the smells of our kitchen. The Restaurant offers a menu with a great buffet with zero km products and typical dishes of the tradition as steaming polenta with melted cheese, mushrooms, or meat sauce, grilled sausages, oven baked pizzas, homemade desserts and apple strudel.

This is where the typical ancient creaking parquet and the rustle of newspapers served a breakfast where you can really find anything, from sweet to savoury, hot croissants, jams from Val di Susa, homemade cakes, scrambled eggs, cheeses and mixed cold cuts.

The “**STELLATO**”, Restaurant, is a sophisticated environment open only for dinner where you can try one of the most exclusive experiences in the world, an extraordinary dinner with films projections, which tell the story of sensational dishes, which are then reproduced by our Chef. The only one in Italy. By reservation only. Ideal for gala dinners, birthdays, anniversaries. Capacity 40 Pax.

“**PINOCCHIO**”. When you're looking for a place to feed your children, you want to make sure they feel comfortable. In our restaurant they will find a buffet full of healthy and child-friendly delicacies and flavors . Our restaurant is called Pinocchio because it is located in the middle of a forest, the perfect environment for a wooden puppet.
